

COMPANY PROFILE

INTEGRITY | QUALITY | TRANSPARENCY

COMPANY HISTORY

M McIntyre Holdings (Pty) Ltd t/a Money Mike Digital has been in operation since 19 September 2020 and its line of business is currently an Internet & Café & Copy shop. The Internet Café & Copy shop has attracted a base of lifetime patrons since its establishment within the Extension 14, Bontleng and Great Gaborone area. Money Mike Digital is proud of its mix of affluent, low/medium/high income and students (both male and female) patrons and visitors alike.

The Internet Café & Copy shop has a strong relationship not only with the Extension 14 & Bontleng community but also with most corporates in the country whom we offer various products and services.

We do offer students discounts in our wide range of services as we are keen about giving back to the community and the upcoming generation. Feb 2021 we recently offered assistance to doing photocopying for Lesedi Primary School (CAPA 4 NOTE TERM I,II,III/2019) when the school printer was offline whilst they awaiting their technical support team, FREE of charge.

We have an exclusive office with its furniture that services predominantly affluent customers for social interaction, research, business consultations and meetings with an extremely stable internet bandwidth internet connectivity.

VALUES

Integrity: We observe the highest standards of professional ethics.

Quality: To provide the highest service quality to our intended customers.

Transparency: Our business operations are open and straight forward.

Readiness: We are prompt, proactive, careful and passionate in complying with our targets.

Teamwork: We nurture teamwork and value mutual trust and respect.

Honesty: Our acts are in good faith and trustful.

Professionalism: We work within defined regulatory framework of personal and professional standards.

Respect: We encourage harmony and warmth between persons, considering human diversity.

Serving the community: Our activities and services supporting local communities through socio-economical actions and preservation of living culture.

Controlling the environmental impact: Setting a precedent for an honest, fair and environmentally sustainable business.
